

160 years of history, thought and analysis online

'For writers and students, an unrivalled source of authoritative, but accessible, global political, economic and social analysis and commentary since 1843.'

– Dr Richard Roberts, *The Centre for Contemporary British History, Institute for Historical Research, London*

*'Highly intelligent discussion is **The Economist's** contribution to Britain and to journalism.'* – *Time*

On September 2nd 1843 the first issue of *The Economist* was published. Since then it has generally been regarded as one of the world's pre-eminent weekly newspapers. Over the past 160 years, *The Economist* has acquired an unrivalled reputation as a primary source of intelligent and reliable information through its consistently independent editorial perspective, and intelligent analysis of weekly events. To this day, it continues to report on the world's current trends and puts them into the context of an economic and political landscape.

The Economist and Gale are pleased to announce that the complete facsimile run of *The Economist* from 1843 to 2003 will be available online in October 2007. This unique collaboration between *The Economist* and Gale will bring researchers every page, every editorial, all commentaries and letters as well as all news items and financial indicators in one simple, easy-to-use digital format.

The Economist Historical Archive 1843-2003 will deliver access to the complete online archive, from the first issue published in 1843 to the last issue of 2003. This will not only facilitate comparisons of economic trends across continents and centuries, it will also help researchers and students analyse key events and their consequences. From world economy to world hunger, from Europe to the final frontier, and from politics to geography, *The Economist* Historical Archive 1843-2003 will allow students and academics, librarians and the general public, to explore world events and evaluate their impact.

Researchers will be able to access the archive using the familiar, powerful online capabilities they have come to expect from Gale. This unique digital archive offers an essential research tool for all those studying business and economics, politics and international affairs, modern history and management sciences.

FEATURES:

- Print and email
- Marked items
- InfoMarks
- Exportable Key Indicator tables
- Search tips
- Athens and Shibboleth authentication
- Free technical support

FUNCTIONALITY:

- **Basic Search** - full text searching with optional fuzzy search, and search term highlighting in the facsimile pages
- **Advanced Search**
 - by section
 - by date
 - by article title
 - by contributor (where identified)
